17.05.25 (B/D) Borgarnes – Grabrok Crater - Akureyri – Gooafoss – Husavik (West to Northeast Iceland)

We begin our day by climbing a volcano crater in an old lava field in West Iceland. Grabrok Crater rises about 170 metres above the ground and is easily accessible via a footpath, but is quite steep. Steps have been built on it to make the hike easier. A brisk walk from the parking lot to the top of the crater and back takes about 40 minutes. Once at the top we are rewarded with incredible views. Afterwards we travel through the fertile farmlands and fjord landscapes of Northwest Iceland, and visit the beautiful town of Akureyri, Iceland's second largest city. We stop at Gooafoss, "the waterfall of the Gods," before reaching our accommodation in Northeast Iceland, where we have a two night stay. Dinner this evening is included. Accommodation: Fosshotel Husavik or similar

18.05.25 (B/D) Whale Watching – Lake Myvatn – Dimmuborgir Lava Field

Our day begins with a whale watching cruise from Husavik (weather permitting). We tour the Lake Myvatn area, considered as one of the most fertile areas in the world, so close to the Arctic Circle. The lake's unique features are shaped by nature and include strange lava formations, pseudo craters and attractive bays filled with thousands of birds. We stroll through the lava field of Dimmuborgir and soak at the Myvatn Nature Baths. Several hiking routes have been marked out in this area. At all crossings there is a map of the area, which shows all possible routes. Most are easy to walk. The small circle takes about 30 minutes to walk and the big circle that takes us to the well known church formation takes approximately one hour. Dinner this evening is included.

Accommodation: Fosshotel Husavik or similar

19.05.25 (B/D) Husavik – Namaskaro – Dettifoss – Egilsstadir (North to East Iceland)

This morning we explore the geothermal area of Namaskaro and Hverir. Then we travel to Dettifoss, Europe's most powerful waterfall in the northern part of Vatnajokull National Park. From there we head through the uninhabited highlands to East Iceland, where we spend the night. Dinner this evening is included.

20.05.25 (B/D) Egilsstadir – Vatnajokull – Jokulsarlon – Skaftafell (Fjords & Glaciers)

Soon we see Vatnajokull – Europe's biggest glacier that is visible all over Southeast Iceland. Past the town of Hofn, we stop for a boat ride among the floating icebergs on the glacial lagoon at Jokulsarlon. The night is spent near Skaftafell on the Southern part of Vatnajokull National Park. Dinner this evening is included.

Accommodation: Fosshotel Glacier Lagoon or similar

21.05.25 (B/D) Vatnajokull National Park and the South

Skaftafell is a hiker's paradise and there are a few routes to choose from. One of the easier routes is Skaftafellsjokull, which leads to the tongue of the glacier and is a 3.7km round

trip taking approximately 1½ hours. There are other more difficult options available. Please note that the group will only have limited time available at each stop, so the hiking route chosen may be limited by these time constraints. We cross the sandy desert of the south coast, and travel along mountainous cliffs, glaciers and waterfalls. We stroll along the black lava beach and bird cliffs near the village of Vik. Iceland's past comes alive at the Skogar Folk Museum with its turf houses. Dinner this evening is included.
Accommodation: Hotel Stracta or similar

22.05.25
(B/D)

Vestmann Islands

This morning we visit Seljalandsfoss Waterfall and then take a short ferry ride to the the Vestmann Islands. Explore the town of Heimaey and this extraordinary island by foot and by bus. The volcanic eruption in 1973 is considered the largest natural disaster in Iceland in recent history. The eruption began on January 23rd on the island of Heimaey, the only populated island of the Vestmannaeyjar archipelago. After the evacuation of the inhabitants and during the five months while the eruption lasted, there was much uncertainty as to whether or not the island could ever be re-populated. During our tour to the Westman Islands we explore bird cliffs, walk up the volcano crater and visit 'Pompeii of the North', a volcanic excavation project. Please note the walk up the volcano crater is just over 200 metres high, on little black stones and a one way walk takes approximately 30 minutes. The volcano is still warm in parts and the view is amazing. We have the afternoon free to wander around the town of Heimaey, with its birds and signs of recent volcanic eruptions. Our hotel this evening is located in Vestmannaeyjar, on the island of Heimaey, which has a population of about 4,300. Dinner this evening is included.
